Portfolio **Book**

Since

1938

The image is a collage of four photographs illustrating the tobacco supply chain. The top-left photo shows rows of green tobacco plants in a seedbed under a soft, hazy sky. The top-right photo shows a large industrial processing facility with blue structural beams and machinery. The bottom-left photo shows a worker in a colorful patterned shirt and a yellow safety vest tending to tobacco plants. The bottom-right photo shows a shipping yard with a large container ship, a crane, and a forklift moving a pallet of boxes. A semi-transparent dark blue banner with white text is overlaid across the center of the collage.

From seedbed to harvest, to processing and packing, GLTCL is a
FULL VERTICALLY INTEGRATED
company ensuring high-quality, homogenous tobacco products.

ABOUT US

Global Leaf Tobacco Company Limited integrates near a century of heritage with precision technology. We specialize in the premium cultivation, high-capacity processing, and rapid global distribution of world-class tobacco products, uplifting hundreds of communities.

THE TOASTED TOBACCO

Toasting Process

Preparation & Conditioning

Tobacco is conditioned to the ideal moisture and temperature for even toasting.

Casing Infusion

Flavor casings (cocoa, nutty, fruity) are applied precisely through a controlled spray.

Precision Toasting

Tobacco passes multi-zone chambers, optimizing temp. and airflow to reduce ammonia, enhance flavor

Top Flavoring

Flavoring agents are applied after toasting to enhance the aromatic profile and provide a signature taste.

Advantages of Toasted Tobacco

Richer, rounder taste with controlled Nicotine

Lower ammonia and smoother smoke delivery

Enhanced flavor retention over time

Improved combustibility and blend compatibility

Grade	Product Name	Description	Nicotine Level	Key Flavor Notes	Remarks
CBT-1	Toasted Burley – Cocoa Casing	High-nicotine Burley base with rich cocoa casing and nutty undertones	2.9%-3.0%	Cocoa, Nutty, Rich	Premium base for full-flavor blends
CBT-2	Toasted Burley – Cocoa Casing (Low Nic)	Similar cocoa and nutty casing on a milder Burley base	2.4%-2.5%	Cocoa, Nutty, Smooth	Ideal for light-to-medium products
CBT-3	Light Toasted Burley	Gentle toasting with sugar casing; ammonia reduction through high-temperature on filler type Burley.	1.6%-1.7%	Sweet, Mild	Base for smooth and light styles
CBT-G	Fruity-Chocolate Toasted Burley	Fruity and slightly sour notes harmonized with chocolate character	2.2%-2.3%	Fruity, Sour-Sweet, Cocoa	Specialty aromatic Burley
DVT	Toasted Dark Virginia	Toasted Dark Virginia with fruity-chocolate casing and bright aroma	1.4%-1.5%	Fruity, Chocolate	Ideal for premium blend enhancement

THE DIET TOBACCO

The DIET Process

Lamina Conditioning:

In-feed lamina moisture is carefully conditioned between **12-12.5%**, bringing it up to optimal levels of **20-21%**

Cutting:

With a cutting width of **1.0 mm**, we ensure filling value of the expanded lamina stays between **8.5-9 cm³/gm**

Packing & Final Quality Assurance:

Final product is packed in **C-48 cartons with poly liners**, each holding **60 kgs** for easy handling and shipment.

Advanced DIET Processing:

Our process reduces tar and we ensure filling value of the expanded lamina stays **8-9 cm³/gm** (As per requirement)

Why Choose DIET Tobacco?

Our Product Range

Grade	Tobacco Type	Filling Value	Input Nicotine	Output Nicotine	Output Sugar
FCEX-1	100% FCV NC-95	8.48 Cm ³ /gm	1.65%	1.60%	12.0%
FC8B2EX-1	80% FCV, 20% Burley	8.10 Cm ³ /gm	1.95%	1.90%	10.0%
BEX-1	100% Burley	8.62 Cm ³ /gm	3.00%	2.95%	-
